Dr. W.D. Pruner
U.S. Atomic Energy Commission
Washington, D.C.

Dear Dr. Pruner:

Thank you for your letter of May 10th. about Palomares and also for returning the clipping.

I am most pleased that you are so carefully following up and do hope that if Mr. Fleshill's proves to be incorrect that it will be possible to get a correction into print. Perhaps, if not thought Life Espanol, through the Spanish newspapers.

My Spanish is also so-so and I am most interested to know from you the extended meaning of the word Palomas.

I will be most happy to hear from you again after you have heard more from Spain.

Sincerely,

Priscilla Houston
