Three Incremental Funding Procurement Requests

Geoffrey J. Judge, EH-10

THRU: Goetz K. Oertel, EH-30 /S/

EH-34

Sheppard

6/13/86

The following PRs for incremental funding under B&R EA-01-09-06 are attached for approval and processing to Procurement Operations:

1. Analysis Group, Inc.
   Project 86-ES-149
   $100,000, Exercise First Option
   John Cace, Project Manager

2. Factory Mutual Research
   Project 86-ES-071
   $148,000, Exercise Second Option
   Walter Maybee, Project Manager

3. Spanish Government
   Project 86-ES-050
   $140,000
   Tommy McCraw, Project Manager

Please note that although the annual report from Emilio Iranzo, Chief of Indalo Project (copy attached), has requested a funding level of $240,000, we had only planned $140,000 for this fiscal year. I believe this project more appropriately falls under the mission of the Office of Nuclear Safety and, therefore, this is the final year of funding by the Office of Operational Safety.

The Operating Plan Summary sheets for these three projects.are also attached.

bcc: John Cace, EH-342
Walt Maybee, EH-342
Tommy McCraw, EH-33
Fran Kimball, EH-10

/S/
Danny R. Sheppard
Acting Director
Office of Operational Safety
