Dear Martin:

I've received from different sources three books that would interest Drango. I thought it would be good policy if you were to send them (by air, of course,) with a note. I didn't and found it greatly appreciated.

The three are:

HEHF-25 US Transuranium Registry
Annual Rpt. Oct. 1, 1976 - Oct. 1, 1977

The Effects of Nuclear Weapons. Series
Glossary & Philip J. Dolan. Third Edition
1977 US \$0.00 & US \$0.00.

NFO-178 Transuranium in the Natural
Environment. Supp. at Battalberg, Oct 1976
Pub June 1977 Ed. M.G. White and P.B.
Hemaway Nevada Applied Tech. Corp. DoE.

Please give my regards to the
residuum of the old guard; and
to yourself and family from Hedges
and me.

Sincerely
David
