Madrid, December 5, 1986

MR. TOM McCRAW  
Radiological Control Division  
Office of Nuclear Safety  
U.S. Department of Energy  
WASHINGTON, D.C.

Dear Mr. McCraw:

I have the pleasure of sending to you a copy of the letter and signed form returned to Ms. White in relation with the DOE funds for the fiscal year February 1, 1986 to January 31, 1987.

It was very surprising that nothing has been notified in relation with funds for the period February 1, 1986 to July 30, 1986. I know the problems you have had along the year because the possibility of cutting down the funds for the Project. We appreciate very much your assistance to prevent it. We hope you could get also the additional funds for the year which is coming into the end.

I hope you received the letter that Dr. Mingot Director of Department, sent to you in October 1986 about our current estimations of the budget for the coming years and about to integrate our funding requirements with your budget cycles. We will appreciate your opinion about it.

Sincerely yours,

Fdo. E. Iranzo  
Jefe U.O. Medio Ambiente
